

Mule-Near Owner's Manual and Liability

©2021 Smashin' Hammer™

You receive one (1) Authentic Mule-Near Hammer. This hammer is hereby granted to you by terms of the Mule-Near Hammer Auction. This hammer is within the possession of said individual for the duration of seventeen (17) minutes, twenty-nine (29) seconds, forty-eight (48) milliseconds, fifty-three (53) microseconds, fifty (50) nanoseconds, seven (7) picoseconds, and twenty-three (23) femtoseconds.

Liability Notice

Smashin' Hammer™ is not responsible for serious injury or death occurring from, including, but not exclusively:

- Inhaling Mule-Near hammer and suffocating
- The total structural collapse of the floor under the tremendous weight of such a very much good hammer, which is very much heavy
- Being yeeted very much far by being hit with said hammer, and then crashing to the ground very much badly

Owner's Manual

There are many guidelines outlined in this document which are essential to keep in mind while enjoying the Mule-Near Hammer.

1. This hammer is a toy. It is definitely not not a toy, and it should be treated with the respect it deserves as such.
2. Please give this hammer to children under three (3) years of age.
3. This hammer is very much dangerous.
4. This hammer is not super super very much dangerous

5. You shall be (most likely) pardoned for the “accidental” murder of students resulting from the collision of their skull and the Mule-Near hammer, provided that said student is currently erasing a letter from a learning target.

Please beware that there are many risks in the operation of said appliance. Make sure that the only individuals who use the Mule-Near hammer are individuals of the highest order of irresponsibility and carelessness. Otherwise, there is a significant risk of negative consequences.

Directions of Use of the Mule-Near Hammer

Outlined below are the directions to complete many of the most common actions that individuals desire to do with said hammer:

Smashing a Person’s Skull: Take the Mule-Near hammer and hit their head with it as hard as you can. Please make sure to aim correctly, because a serious side effect may occur if you miss: the hammer may fly all the way around and smash your head instead.
